This information covers MTDA service availability only. Participating public schools set their own calendar, and may not support CR participation throughout the entire summer program. Students and parents should contact their local school facilitator for details.

Note to students and parents: Montana Digital Academy services are accessed through your local Montana public school. MTDA cannot take enrollments directly from student or their parents. If you are interested in either summer program session, please contact your local school facilitator, counselor, or administrator before school ends for the spring. We cannot assist with enrollment if local school personnel is not available.
